Notes

What is Markdown?

Markdown is a lightweight markup language that many technical professionals use to create and edit technical documents. With Markdown, you write text in a plain text editor (such as vi or Emacs), inserting special characters to create headers, boldface, bullets, and so on.

What is Linux?

Linux is an open source operating system (OS). An operating system is the software that directly manages a system's hardware and resources, like CPU, memory, and storage.

What is Ubuntu?

Ubuntu is a Linux distribution based on Debian and composed mostly of free and open-source software.Ubuntu is officially released in multiple editions: Desktop, Server, and Core for Internet of things devices and robots.
